2119 Adams St.
New Orleans, La.
1/17/78

Dear Harold,

Enclosed is the spectro material as promised. Kevin recalls sending you this material so it must have gotten misplaced.

Over Christmas vacation I was compiling material on Oswald and the FPCC. One work which I could not get my hands on was Oswald in New Orleans. Can you think of any important facts in your book that have not been published in other books by now? I would certainly appreciate your comments. Believe or not, the local library claims not to have your books. Many things seemed to have been ripped off from the libraries in the Garrison era, though.

I hope the enclosed material will be useful to you.

Sincerely,
Mark
